## PREFACE

---

THE present Part contains the texts of ninety-seven tablets and four plates of K.K. 4267, 4276 ; 83-I-18, 1 ; 83-I-18, 361, reproduced by the collotype process. On many of these texts the name of the scribe has been broken away. No attempt has been made to classify such Letters as this more naturally falls within the province of the commentary. Again few restorations of the text have been attempted as corrections and restorations are reserved for the Part on Textual Notes.

No. 1282 has been published by GEORGE SMITH ; No. 1278 by PINCHES ; Nos. 1279, 1281, 1283, 1304, 1311 and 1326, have been published by WINCKLER ; Nos. 1277, 1280, 1308, 1339, 1367, 1368 and 1369 by WATERMAN, and I am indebted to them for their copies, which were carefully prepared. I have not been able, however, to accept all their readings, and I may also say that I do not expect scholars to accept all mine. Many of these tablets are broken and most difficult to read, and in such it is often impossible to form a connected text. Again there are as many different handwritings as there were scribes. Hence, there will be many places where scholars may differ from my readings. In the final collation of all the Letter texts, I myself hope to be able to decide the reading of many passages, about which there is, to my mind, still some uncertainty.

A few very important texts, which cannot be properly classified as Letters, but which contain information such as we should expect to find in the form of Letters, are included in this Part. Compare BEZOLD'S Catalogue, and WATERMAN in his Chicago Dissertation.

As already stated in Part VI, I am much honoured by the attention shown to this class of literature, and I wish to state again that, as soon as the texts are published, they become public property, and anyone may use them for any purpose he may wish.

This work by my fellow students will in no way interfere with my original plan as described in Part I and again in Part IV, and I see no reason to depart from this plan as outlined twenty-one years ago. Hence I shall continue to publish the texts until the *Corpus Epistolarum* is completed. Part XIV is in preparation, and it is my hope to bring the remaining texts into Parts XIV, XV and XVI. In Part XVII it is my intention to give the results of a final collation of all the texts published in Parts I–XVI, and to suggest many restorations which I have not included in the texts themselves. In other words, Part XVII will be given to “Textual Notes.” Part XVIII will be an Index Volume, giving Lists of all the Proper Names, Officials, Divinities, Countries, Peoples, Cities, etc., found in Parts I–XVI, with references to their British Museum registration numbers and to the numbers which they bear in this Series.

I wish especially to acknowledge my obligations to DR. E. WALLIS BUDGE, the Keeper of the Department of Egyptian and Assyrian Antiquities, British Museum, for his courtesy and for the great assistance which he has afforded me in the preparation of these Parts. I am indebted also to the other members of the Department, MESSRS. KING and HALL, for their unfailing courtesy. To MR. KING and to DR. KLAUBER, who has kindly read proofs of these texts, I am also grateful for suggestions as to the reading of several signs. To my former pupil, DR. LEROY WATERMAN, who has acted as my Literary Secretary during the year, I wish to give credit for his assistance in the copying of texts and in the reading of proofs.

I wish also to express my appreciation to PROFESSOR HARRY PRATT JUDSON, President of the University of

Chicago, for the interest which he has shown in this Series, and for the help which he has kindly given me.

TO PROFESSOR THE REVEREND A. H. SAYCE, Professor of Assyriology in the University of Oxford, a pioneer in the study of the languages, history and religions of the ancient peoples of Western Asia, I have the honour to dedicate this volume.

## PREFACE

---

PROFESSOR ROBERT FRANCIS HARPER, after twenty-two years of untiring devotion to the task of publishing this series of texts, and particularly during the past three years toiling under a heavy burden of ill-health, died on August 5th, 1914, in the midst of his work, shortly before the completion of the present Part.

It was my privilege during the past summer to assist in the preparation of first copies for about twenty plates of the present work, and in the proof reading of the whole. At DR. HARPER'S death the entire volume was in type, and eighty-eight plates had been read in proof. I am responsible for the final readings of Nos. 1606-1613, 1615-1619, 1622-1637 inclusive, 1639, 1641 and 1644, also for the reading and correction of the indices.

The present Part contains the texts of one hundred and two tablets. On many of these texts the name of the scribe has been broken away. No attempt has been made to classify such letters. Again, few restorations of the text have been undertaken. Nos. 1586, 1604, 1626, and 1627 have been published by THOMPSON. Nos. 1606, 1628 and 1631 appear in III RAWLINSON, and Nos. 1587 and 1604 are published by BEZOLD.

Many of these tablets are broken and most difficult to read, and in such it is often impossible to form a connected

text. There are as many different handwritings as there were scribes. Hence there may be a number of places where scholars may differ on the readings.

It was the purpose of PROFESSOR HARPER, often expressed in the preceding Parts, to make a final collation at the end of the series of all the Letter texts, in the hope of being able to decide the reading of many passages, about which there was, to his mind, still some uncertainty. To that extent the work as he planned it remains incomplete, but he lived to see set up in type all the texts of importance in the series.

Special acknowledgments are due to DR. E. A. WALLIS BUDGE, the Keeper of the Department of Egyptian and Assyrian Antiquities, British Museum, for his courtesy, and particularly for his deep interest and friendly counsel, without which the present Part could not have been thus concluded.

Acknowledgments are also due to the other members of the Department, Messrs. KING and HALL, for their unfailing courtesy. To DR. KING and to T. J. MEEK, Fellow in Semitics of the University of Chicago, who kindly read a number of proofs, I am indebted for suggestions as to the reading of several signs.

To the Authorities of the University of Chicago, at whose direction this Part is completed, I beg to express my appreciation.

LEROY WATERMAN.
